

Entry Requirements

For the BS degree, applicants must complete the higher secondary school level (Matthayom 6 or equivalent) in Science Program.

For the MS program, applicants should normally hold, or be expecting to obtain a BS degree in Pharmacy, Biological Sciences or related areas with the GPA of at least 2.5 (on 1 – 4 scale). For those with a lower GPA or a non-related BS degree, well-training and experience in Cosmetic Industry may be considered and accepted as an alternative entrance qualification.

Career Opportunities

Graduates can expect a number of career opportunities. The feasible areas of employment include Cosmetic Scientists and Researchers, Academic Lecturers, Product Development Experts, and Cosmetic Consultants.

School of
COSMETIC SCIENCE

School of Cosmetic Science
Mae Fah Luang University
Chiang Rai, Thailand

Study Program in Cosmetic Science

Recently established in 1998, Mae Fah Luang University, located in Chiang Rai, Thailand, has been granted the Royal Charter as an autonomous public university with financial support from the Royal Thai Government. At present, the University offers a number of programs covering the field of Arts and Natural Sciences, Social Science, Management Science, and, in 2005, expanding the area of study to **Cosmetic Science and Health Sciences**.

Cosmetic Science Program

At present, the BS and MS degrees are offered through the School of Cosmetic Science. Both curricula have been designed to provide both fundamental and advanced knowledge as well as skills in Cosmetic Science for students and Graduates wishing to pursue their careers in the Cosmetic Industry. As a matter of fact, our School is the first institution offering this kind of program in Thailand and is hence an ideal place for students who are interested in pursuing their study in Cosmetic Science.

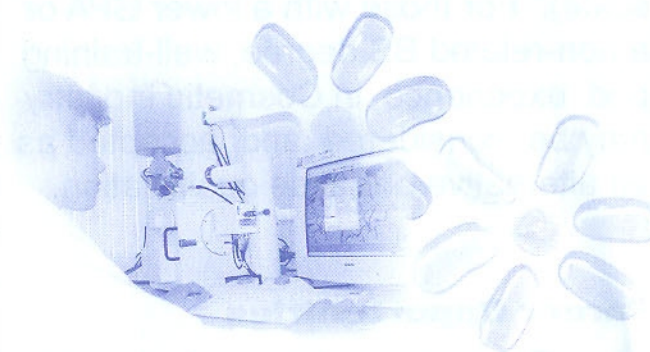

Course Content

Generally, the course structure consists of a comprehensive series of fundamental science subjects and advanced courses in Cosmetic Science and relevant fields. In addition, the MS program (by research) is also available for well-trained Graduates.

Course Evaluation

Teaching and learning will be by formal lectures, laboratory practicals, tutorials and group discussions.

For course evaluation, this will be comprised of various kinds of assessment methods including in-course assignments and examinations, laboratory reports, Seminar presentation and Final Year Project report.

However, for Graduates in the MS (by research) program, the evaluation will be exclusively dependent on your research performance and thesis submission. Graduates are also expected to participate in Seminar and present their work at the National and / or International Conference.
