Overview

M.B.A. in Entrepreneurial Management (International Program)

In response to the growing GMS regional and international economic integration, the 1.5 year **International MBA Program in Entrepreneurial Management** aims at creating a very diverse education environment. It focuses on entrepreneurial management skills, innovation, and analytical thinking and problem solving abilities in this particular business field. Graduates will understand how to apply their theoretical knowledge in real-life business situations and develop excellent leadership competency in order to guide their businesses to international success.

The submission of a Thesis or an Independent Study (IS) in a related field is a central requirement of the program which helps the students to deepen their research skills and to advance their expertise in the chosen area. All of this makes the program a unique opportunity in the region for everyone seeking business success through entrepreneurship.
