**- The French-Upper Mekong Sub-region Academic Cooperation Center at Mae Fah Luang University**

: To engage in academic cooperation between France and Thailand in the area of science, social science, technology, language, and culture to exchange knowledge and experience between France and Thailand

# Mae Fah Luang University

## University profile:

Mae Fah Luang University (MFU) was established under the Royal Charter in September 1998, as a public autonomous university with the financial supports from the Royal Thai Government. The establishment was in response to the needs of people in the North of Thailand and to commemorate the gracious contribution of the King's Mother, Her Royal Highness Princess Srinagarindra, the Princess Mother, lovingly known to her subjects as "Mae Fah Luang". Mae Fah Luang University is fully accredited by the Ministry of Education of Thailand and has close collaboration with other leading institutes in Thailand and other countries. **Mae Fah Luang University is the only public university in Thailand using English as medium of instruction.**

Mae Fah Luang University is located in Chiang Rai, the northernmost province, amidst the strategic location of the Greater Mekong Sub-region (GMS) covering Thailand, Myanmar, Lao PDR, Cambodia, Vietnam and Yunnan Province (Southern China).

## School of Agro – Industry

Agro – Industry is a Key economics activity of Thailand, and the region, that provides excellent employment opportunities for the graduates in this field of study. The School of Agro – Industry at Mae Fah Luang University, established in 1998, has become Thailand's fastest growing institution of higher education. The school has responsibility for instruction, research and development with commitment to education of competent professionals in agro-industries.

## School of Health Science

The School of Health Science aims to be a unique academic center of teaching and studying Thai medicine and Alternative medicine, where traditional knowledge in the art of healing is safely and effectively applied to patient care, on a firm base of modern medical science.

## School of Cosmetic Science

The School of Cosmetic Science is the first academic institute with the established aim to fulfill the needs of the large population of cosmetic professionals in Thailand and Asia. The school enables practitioners to learn the fundamental sciences and become acquainted with the latest advances in cosmetic science. Students are encouraged to develop advanced skills that can lead to senior assignments in cosmetic business, and studies are geared to the needs of cosmetic chemists, aspiring to supervisory roles in laboratory or plant.

## School of Information Technology

The School of Information Technology offers high-end, unique, multi – dimensional, full-time Bachelor and Master Programs in IT, and Computer and Software Engineering. The courses have been designed, developed and

delivered by active practitioners of IT, under the inspiring guidance of internationally acclaimed panel of visionary leaders and innovators leading the IT industry and advanced IT research. All courses are conducted in English as the First Language.

## School of Nursing

The School of Nursing was established with the objective of solving the country's problems of shortage of nurses and disproportion in the number of nurses in the urban and rural areas, which resulted in unequal accessibility to health care service among the population. The School's aim is to produce qualified nurses, who will pursue the Princess Mother's aspiration and carry on her dedicated work in developing the wellness of all people, while being professionals with good morals and ethics, and contributing to the progress of society.

## School of Liberal Arts

The School of Liberal Arts, Mae Fah Luang University, was established with the primary mission to promote quality instruction, research, academic services, art and cultural preservation, and most importantly, the development of linguistically proficient graduates. It is our resolute intention both to excel in the teaching of English, Chinese, Japanese, and French and to emphasize the importance of information technology, which has become a worldwide occupational requirement. Our responsibilities also include the customization of our general education program to enhance students' learning in sociocultural, economic, political, environmental, and health-hygiene areas, which serve as a basis on which other professional courses are pursued.

## School of Law

The School of Law was established for the purpose of supporting a widely need of studying law at the moment. The curriculum was drafted by experts in the field of law which tends to train our graduates of law being knowledgeable, having a legal expertise in theoretical part and being able to apply it in practical part as well as believing firmly in moral principles, legal justice and ethics of the legal profession. At our school of law, we organize regularly many supplementary educational activities for enhancing our law students' ability to always have learning opportunities in any circumstance. Moreover, there are various educational activities, outings as well as special lectures conducted by many legal experts.

## School of Management

The School of Management aims to provide students equal opportunities for quality education to pursue a specialized study program under each discipline of the school. The School has committed to assist students in developing the creative thinking, innovation, professional and leadership skills through innovative learning practices of the School.

## School of Science

The School of Science is committed to developing high-quality teaching and learning, and research programs and is pursuing excellence in its staff with vigor. The School is an active participant in the university's quality assurance program and is interested in developing graduates with a high capacity to conduct relevant research to high standard. The School has a group of energetic, well-trained staff, most of whom have very good competence in English, a fact usually related to their graduate training overseas.
