24 bachelor's degree programs, 16 master's degree programs and 7 doctoral programs in 9 schools:

1. School of Agro-Industry
2. School of Cosmetic Science
3. School of Health Science
4. School of Nursing
5. School of Science
6. School of Information Technology
7. School of Law
8. School of Liberal Arts
9. School of Management

Welcome to MFU

Mae Fah Luang University

The university in the park
with the most beautiful
campus and the best
facilities in thailand

The best place to
live and learn

School of Agro-Industry

Agro-industry is currently a key economic activity of Thailand and the region. It provides a wide range of employment opportunities for the graduates in this discipline. The School of Agro-Industry at Mae Fah Luang University was established in 1998 and is responsible for instruction, research, and development with commitment to producing competent professionals in agro-industrial practices.

The School offers two bachelor's degree programs and one master's degree program:

Bachelor of Science (Food Technology)

Bachelor of Science (Postharvest and Packaging Technology)

Master of Science (Food Technology)

School of Cosmetic Science

The School of Cosmetic Science is the first academic institution with the established aim of fulfill the needs of the large population for cosmetic professionals in Thailand and Asia. The School enables students and practitioners to learn the fundamental sciences and become acquainted with the latest advances in cosmetic science. Students are encouraged to develop advanced skills that can lead to senior assignments in cosmetic business, and studies are geared to the needs of cosmetic chemists, aspiring to supervisory roles in laboratory or plant.

The School offers one bachelor's degree program and one master's degree program:

Bachelor of Science (Cosmetic Science)

Master of Science (Cosmetic Science)

School of Health Science

The School of Health Science aims to be a unique academic center for teaching and studying Thai medicine and alternative medicine, where traditional knowledge in the art of healing is safely and effectively applied to holistic care based on and complementing modern medical science. The School aims to produce high-quality graduates who are able to apply and combine knowledge of Thai traditional medicine with modern medical science for health care through a holistic approach, while strictly adhering to ethical and professional integrity.

The School offers one diploma degree program and three bachelor's degree programs:

Diploma in Health Care Service

Bachelor of Science (Applied Thai Traditional Medicine)

Bachelor of Science (Health Care Service)

Bachelor of Physical Therapy

School of Nursing

The School of Nursing's main objective is to solve the country's problems of a shortage of nurses and disproportionate number of nurses in urban and rural areas, which result in unequal accessibility to health care services among the population. The School aims to produce qualified nurses, who will pursue the late Princess Mother's aspiration and carry on her dedicated work in developing the wellness of all people, while maintaining professional integrity, morality, ethics, and contributing to the progress of society.

The School offers one bachelor's degree program in Nursing Science.

Bachelor of Nursing Science

School of Science

The School of Science is committed to developing high-quality teaching, learning, and research programs and is pursuing excellence in its staff with vigor. The School is an active participant in the university's quality assurance program and is interested in developing graduates with a high capacity to conduct relevant research to a high standard. The School has energetic, well-trained staff, most of whom are very competent in English, a fact usually related to their graduate training overseas.

The School offers two bachelor's degree programs, six master's degree programs, and five doctoral's degree programs:

Bachelor of Science (Applied Chemistry)

Bachelor of Science (Biosciences)

Master of Science (Applied Chemistry)

Master of Science (Biosciences)

Master of Science (Biotechnology)

Master of Science (Ceramics Industrial Technology)

Master of Science (Computational Science)

Master of Science (Materials Science)

Doctor of Philosophy (Applied Chemistry)

Doctor of Philosophy (Biosciences)

Doctor of Philosophy (Biotechnology)

Doctor of Philosophy (Computational Science)

Doctor of Philosophy (Materials Science)

School of Information Technology

The School of Information Technology offers full-time bachelor's and master's degree programs in Information Technology, and Engineering. The courses have been designed, developed, and delivered by active practitioners of IT, under the inspiring guidance of an internationally acclaimed panel of visionary leaders and innovators leading the IT industry and advanced IT research.

The School offers six bachelor's degree programs and one master's degree program:

Bachelor of Engineering (Computer Engineering)

Bachelor of Engineering (Information and Communication Engineering)

Bachelor of Science (Computer Science)

Bachelor of Science (Management of Information Technology)

Bachelor of Science (Multimedia Technology and Animation)

Bachelor of Science (Software Engineering)

Master of Science (Strategic Management Information Technology)

School of Law

The School of Law was established in response to the current demand for personnel with law expertise. The curriculum concentrates on training graduates to possess both theoretical and practical legal expertise, as well as adhering firmly to the moral principles, legal justice, and the ethics of the legal profession. The School organizes many supplementary educational activities on a regular basis in order to enhance the students' ability to create learning opportunities under any circumstance. Moreover, there are various educational activities, outings, as well as special lectures conducted by legal experts.

The School offers one bachelor's degree program and one master's degree program:

Bachelor of Law*

Master of Law*

School of Liberal Arts

The School of Liberal Arts was established with the primary mission to promote quality instruction, research, academic services, arts and cultural conservation, and most importantly, the development of linguistically proficient graduates. It is our resolute intention both to excel in the teaching of English, Chinese, Japanese, and French and to emphasize the importance of information technology, which has become a worldwide occupational requirement. Our responsibilities also include the customization of our general education program to enhance students' learning in sociocultural, economic, political, environmental and health-hygiene areas, which serve as a basis on which other professional courses are pursued.

The School offers three bachelor's degree programs, three master's degree programs and one doctoral degree program:

Bachelor of Arts (Business Chinese)

Bachelor of Arts (English)

Bachelor of Public Administration (Local Government)*

Master of Arts (Cultural Studies)*

Master of Education (Education Management)*

Master of Public Administration*

Doctor of Philosophy (Social Science)*

School of Management

The School of Management aims to provide students with equal opportunities for quality education to pursue a specialized study program under each discipline of the school. The School is committed to assisting students in developing their creative thinking, innovation, professional, and leadership skills through our innovative learning practices.

The School offers five bachelor's degree programs, three master's degree programs, and one doctoral degree program :

Bachelor of Accounting

Bachelor of Business Administration
(Business Administration)

Bachelor of Business Administration
(Hospitality Industry Management)

Bachelor of Business Administration
(Tourism Management)

Bachelor of Economics

Master of Science (Natural and Environmental
Management)

Master of Business Administration

Master of Business Administration
(Logistics and Supply Chain Management)*

Doctor of Philosophy (Natural Resources
and Environmental Management)

Please note: All programs are taught in English except the ones marked with an asterisk (*), which are taught in Thai

Resource Centers and Supporting Facilities

The Sirindhorn Chinese Language and Culture Center

To provide state of the art facilities for Chinese language and culture studies. The Center is the only one of its kind supported by the People's Republic of China outside China.

The French-Upper Mekong Sub-region Academic Cooperation Center at Mae Fah Luang University

To engage in academic cooperation between France and Thailand in the area of science, social science, technology, language, and culture to exchange knowledge and experience between France and Thailand.

Academic Services Center

To organize academic activities such as conferences and training programs while seeking external customers in order to bring in revenue and serving as the University's outlet, providing academic and research services to external organization.

Library and Educational Media Center

To provide an extensive collection of books, periodicals, government publications, statistical and reference sources, maps, and audio-visual materials.

Scientific and Technological Instruments Center

To provide equipment for teaching, training, and research to all Schools. All laboratories are well-equipped with modern and sophisticated instruments.

Information Technology Services Center

To provide excellent computing facilities and integrated instruction methods for the use of IT in degree programs. Computer sites are located around the campus and offer access to a range of networked software packages, database systems, internet accessibility, teleconference systems, and computer-aided learning materials.

Mea Fah Luang University Business Incubator (MFUBI)

To focus on supporting and nurturing new start-up companies at all stages of development. Its goal is to raise awareness of entrepreneurship and provide practical business development services to students and graduates who might consider self employment as a future career.

MFLU Book Center

This is a center for distribution and sales of books, educational media and stationary for students, lecturers, university staff, as well as the general public.

Indoor Stadium and Sports Center

This is a multi-purpose indoor stadium offering various indoors-sports facilities as well as fitness rooms, open to both MFU staff and the public to promote sports activities and exercise.

Comprehensive Health-rehabilitation Center

This centre promotes health-care and physical wellbeing activities with main services including health-care training, exercising, tourism, and academic lectures; moreover, it also serves as a venue for senior tourism majors' internships.

Medical Unit

This on-campus first-aid unit provides staff and students with preliminary medical treatment by a physician from a provincial hospital, who is stationed at this unit for two days a week; on the other days staff from the Student Development Division are available for counseling and issuing of first-aid medicine.

Auditoriums and Conference Halls

Mae Fah Luang University's auditoriums and conference halls, which are fully equipped with modern audiovisual facilities, can serve both the University and other organizations as venues for seminars, training programs, symposia and conferences.

Residence and Dormitory

In response to rapidly growing student numbers, the university has increased its accommodation capacity to as many as 5,000 beds in 16 dormitory buildings including are international dormitory. All rooms are equipped with basic facilities and internet access. Each dormitory building contains a common room, TV room with cable, study room, and recreational area. Students can have their own privacy, within a safe, friendly, and lively learning environment. In addition, a sports complex is provided on campus in response to a commitment to healthy living.

Post Office

A licensed on-campus post office offers postal services such as mailing and receiving of letters and parcels.

Banks

Currently, there are two banks located on campus-Bank of Ayudhaya and Bangkok Bank Public Company Limited-for staff, students, and the public.

Food Centers

The canteens on the second floor of D1 Building and on the ground floor of E1 Building are open from 6 a.m. to 10 p.m. In addition, the Faculty Union cafeteria, which is open from morning to evening, and the food shops near '7-11', which are open 5 a.m. to 10 p.m. give students and staff a greater variety of dining options.

Chiang Rai, the northernmost province of Thailand is about 785 kilometers north of Bangkok. Situated on the Kok River basin, Chiang Rai covers an area of approximately 11,678 square meters with an average elevation of 580 meters above sea level. The province, which is located within the renowned Golden Triangle area where Myanmar, Laos and Thailand converge, is also known as the gateway to Myanmar, Laos and Southern China.

By Air

Thai Airways has daily flights connecting Bangkok with Chiang Rai (1 hr. from Bangkok). For more information, contact their Bangkok office at tel. 0 2280 0060, 0 2628 2000, the Chiang Rai Office tel. 0 5371 1179, 0 5371 5207, or view their website at www.thaiairways.com.

One-Two-Go offers daily flights from Bangkok to Chiang Rai. Call 1126 or book online at <http://www.fly12go.com>

Air Asia also offers daily flights connecting Bangkok and Phuket. The flight time is 1 hrs. Visit www.airasia.com or call 02 5159999 for reservations.

By Bus

The coach ride from Bangkok to Chiang Rai is probably best made overnight since passengers can avail themselves of sleep prior to an early morning arrival. There are both air-conditioned and non-air-conditioned bus services from Bangkok's Northern Bus Terminal (Mochit 2 Bus Terminal) on Kamphaengphet 2 Road. The journey may take approximately 9-11 hours.
